

STATE CAPITAL TO PORTLAND.

Change of sentiment in Portland's favor since her proposition became known. Portland practically gives the State a Capitol building if the people so vote.

Now that the people throughout the State are beginning to hear from Portland's side of the case, the misunderstanding due to the misleading statements of those who have assumed to tell her story for her, are being brushed aside.

Reader, who are your informants?

What have they told you?

Have they told you that the Governor in his message pointed out that "something must be done at once" to the old State House?

Have they told you that \$500,000 must be expended by the State upon either the old State House or upon one somewhere else?

Have they told you that the bill before the Senate favoring the removal of the Capital LIMITS the total expense of the new Capital at Portland to \$500,000?

Have they told you that Portland offers as a gift to the State more than the old State House ever cost the State?

Have they told you that the old State House will not be lost to the State, but can be immediately utilized for some other purpose?

Have they told you that the records of the State, of priceless value, are menaced by the chances of fire, and that their loss could not be replaced by money?

Have they told you that a modern fireproof building is the only safeguard for and solution of the problem of how to protect the records?

Have they told you that your taxes will not be raised one penny?

If they have not, they should, for all these points, with others, are embodied in the bill before the Senate!

The simple truth of the whole matter is that Portland will build for the State a magnificent fireproof capitol building within her confines of which every citizen of Maine will be proud without increase of taxes, provided that the people vote at a special election that the seat of government for the State of Maine be changed to Portland.

This is a matter of Business and not of Sentiment.

Can the Legislature afford or the People afford to ignore Portland's offer, or fail to grasp the opportunity.

Cut on this line here.

To Hon. County,

Representative from

State House, Augusta, Maine.

Dear Sir:—

Believing that the question of the removal of the seat of government from Augusta to Portland should be submitted to the people, I most earnestly request that you will use your vote to secure a referendum to the people on this vitally important matter and will use your influence with any other member that you can.

Sincerely yours,

The Story of Father John's

A Story Everyone Should Read. True and Full of Human Interest.

Half a century ago, Rev. Father John O'Brien of St. Patrick's Parish Lowell, Mass., through overwork and exposure, became seriously run down. A cold and stubborn cough and lung trouble threatened his life. An eminent specialist gave Father John, as he was fondly called, a prescription to cure the cold and remove the lung trouble as well as to build up and strengthen the body. The clergyman began to improve at once, the cough disappeared and his lungs healed. It corrected his digestion, made new tissue and Father John was soon restored to his former health and strength.

Father John recommended the medicine to his parishioners and friends, and because of its merits it became the family remedy in thousands of homes, and became known as "Father John's Medicine," having been so named by the people, and was advertised, all with the approval of Father John.

If taken faithfully it will cure all throat and lung troubles, prevent Pneumonia and Consumption, and make flesh and strength.

NOTE—Father John's Medicine is not a patent medicine and does not contain alcohol or poisonous drugs. Read guarantees which follow:

\$25,000 GUARANTEE.

As a guarantee that the story of Father John's Medicine is absolutely true, the sum of \$25,000 will be given to any charitable institution if it can be shown otherwise. Also it is further guaranteed that if Father John's Medicine does not do all that we claim for it, your money will be refunded.
